An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In accordance with MPEP 1302.04, the following grammatical error has been corrected: On page 1, in paragraph [0004], line 3 of the specification, "an switching" has been changed to --a switching--.

The following is an examiner's statement of reasons for allowance:

Claim 1 and its dependent claims are allowed because claim 1 specifically requires distinction means for distinguishing a kind of a person engaged in weaving and outputting a distinction result to data control means, wherein said data control means outputs loom information relative to an item for display corresponding to said distinction result to a display means.

Claim 6 and its dependent claim are allowed because claim 6 specifically requires display means for displaying loom information, transmission means for transmitting an item for display and provided for a person engaged in weaving to carry, wherein data control means outputs loom information relative to an item for display corresponding to a result of discrimination by a discriminating means.

The patent to Makino et al is cited to disclose an information display apparatus for a loom including a display for generating a list of weaving conditions. The input of fabric parameter data causes weaving conditions to be displayed corresponding to that parameter. Yarita et al discloses an information display apparatus for a loom in which

supervisory personnel are provided with means for receiving loom information on a display means. Hellstrom et al discloses a weaving machine having a communication microprocessor for transmission of data representing information types, wherein the communication microprocessor is connected to a radio transmitter/receiver for transmitting the data via a wireless transmission path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
